## SWIMMING POOL PLANS READY AND COMMITTEES WILL BEGIN

All is ready for the big drive to secure a subscription from every man, woman, child and firm in Tonopah for the construction of the swimming pool to displace the death trap that aroused the community so thoroughly last week. Engineer Dynan, of the Tonopah Extension, has completed preliminary plans for the work which it is estimated will cost in the neighborhood of \$1500. This is no temporary device intended to allay the apprehension of parents for the time being, but a permanent blessing that will yield pleasure to every youth for many years to come. For this reason the committee believed it was better to establish the pool along lines of

strength and purity ever though the construction would involve a little more money than what would be required in digging a hole that would fill up during the windy winter months.

A hole in the ground could be dug with aid of a few teams and scrapers but the arrangement would not be sanitary or lasting. The committee therefore resolved to build an attractive pool with cement lined bottom free from mud which would be kept free from sediment by the flow of water passing through from the intake to the outlet. The committee has the figures and tomorrow morning the members will set forth on their mission of mercy.

## SEE THE TRACTOR THAT WALKS ABOUT

The Walking Farm Tractor which is beginning to attract attention in this country is no novelty or untried experiment for it has been in use in Europe for the past seven years during which over 10,000 have been sold and placed in actual service. European farmers were first to avail themselves of the use of tractors in farm work and they were sensible enough to insist on a tractor that would cultivate as well as plow. There was only one machine capable of doing this and that was the walking tractor which through its peculiar construction and adoption of radical changes was enabled to travel through rows of vegetables without doing any injury or packing down the soil on either side.

The company is represented in Tonopah by Lou M. Gardiner and Mark L. Burns who are at the Mizpah Hotel where they will be pleased to explain the advantages of this invention.

## MAY DECLARE A RUSSIAN REPUBLIC

(By Associated Press.)  
LONDON, July 23.—A Reuter Petrograd dispatch dated Friday said that until early this morning the ministers discussed the question of immediately proclaiming Russia a democratic republic. A final decision will be taken by the executive committee of the council of workmen and soldiers delegates.

Newspapers announce that admiral Verderiski, commander of the Baltic fleet, was arrested for communicating secret government telegrams to the sailors' committees.

Indications are that workmen and soldiers council is apprehensive of counter revolutions. A manifesto was issued today calling local organizations of the revolutionary democracy to be ready to rally.

Premier Kerensky has again started for the front at the instance of the Central Committee of Soldiers' and Workmen's Delegates, according to a Reuter dispatch from Petrograd.

## MILLION DOLLAR FUND OF KNIGHTS OF COLUMBUS

Tonopah Council, Knights of Columbus, has appointed a committee to do its share in securing a fund of \$1,000,000 for welfare and religious work among the soldiers both in this country and Europe. The members of the order in the United States have an assessed two dollars per capita making a fund of \$800,000 and it is expected that individual members will contribute sufficient in addition to raise the total to a million dollars. The local committee consists of Rev. Jerome Dias, Thomas J. Lynch, Frank J. Cavanaugh, James Murphy and J. J. Degan.

## ACCIDENTAL DEATH OF YOUNG LAD

Emory R. Winder, son of Mrs. J. P. Roy, of Ely, was killed by the collapse of a derrick at the Comins ranch in Steptoe valley last Wednesday afternoon. In company with three other lads, young Winder went out to help with the haying. On Wednesday afternoon he was helping with the raising of the derrick when something gave way and the whole affair collapsed and the boy was struck by a falling 2x6 timber in such a manner as to break his neck. Dr. Holmquist was sent for and reached the ranch in about an hour after the accident happened. The boy was still alive when the doctor reached the ranch but passed away about 30 minutes later—Ely Record.

## TONOPAH BOY GETS TASTE OF THE NAVY

Louis Haviland, of Tonopah who enlisted in the U. S. naval service June 29th writes his mother from the training station in San Francisco as follows: "I am feeling fine although I was in the hospital for three days suffering from a light attack of fever and bronchitis. I will go to the lower barracks Friday or Saturday and then will be able to get shore leave and go over to San Francisco. The grub is plain but good and enough of it and lots of sleep makes one feel fine. There is a lot of farmers here who were never away from home before and life is sure misery for them. I like it and think I will be able to get leave of absence for 10 days in about four months. The weather is warming up a bit but it is still foggy at night and in the morning. While we were drilling this afternoon one young kid got jerked out of ranks and made to stand at attention for an hour. That is the trouble. The majority of men here don't realize what they are up against and they think it a joke and are getting bailed out all the time. I know what I am up against and there has not been an officer call me down since I have been here. The only way to get by is to do what you are told and say nothing.

## IS NEVADA GETTING THE DOUBLE CROSS?

According to Reno papers the entire state of Nevada is given credit for 446 enlistments from April first to June 17th, with a showing for White Pine county of only 59 men. As a matter of fact Corporal Freeman, who is in charge of the Ely recruiting office, has receipts for 82 recruits from White Pine who were accepted at Reno. Of course it is probable that some of these men gave their homes as from other states, but as a matter of fact nearly all of them were actual residents of White Pine county. It is also known that a considerable number of White Piners enlisted in the army corps at Salt Lake and other recruiting stations, for which this county does not receive credit. It is also probable that fully as many men have enlisted in the navy, marine and aviation corps from White Pine as in the regular army. All of these enlistments were made through the Salt Lake and coast recruiting offices, but in time of course would be properly credited to Nevada and White Pine county. It is probable that nearly 200 men have already enlisted in the various branches of the army from White Pine county, and yet according to Reno papers out quota under the regular draft will amount to 193 men, making a total of nearly 400 men drawn from this one county.—Ely Record.

## RUSSIANS RENEW ATTACK

(By Associated Press.)  
BERLIN, July 24.—The Russians have taken the offensive at both ends of the front in the regions of Jacobstadt and Drinsk on the Rumanian line. Their offensive in Trosus and Putna valleys was defeated everywhere.

Bishop Mitchell of Minneapolis says the United States is a great field for missionary work. Billy Sunday finds it so.

## Announcement

WE wish to announce that we have purchased the store and good will of the old established firm of Ryan & Stenson in Tonopah, and we hope to be able to keep all of that firm's patronage and add many new patrons.

We have been connected with the dry goods store known as Hunt's Hygrade, for a number of years, and we feel that we know the needs and desires of the Tonopah people, and assure you that we intend to try to have what you want at fair and honest prices.

We believe in dealing with our friends, that absolute candor and integrity is necessary. We want to feel that when we recommend an article to you, that you will know that all we say about it is absolute truth.

We are not going to put on any "sale" nor do we claim to be "selling at cost". We cannot do that and make a living, and pay for light and clerk hire. But we are going to keep the livest up-to-date stock of merchandise that was ever brought to Southern Nevada, and we are going to sell it at just as low a price as we can make a fair profit ourselves. We expect you to believe that, and to deal with you in such a way that if any one ever doubts it you will be a witness to the truth of our statements.

We are going to go through all the stock, and find all the remnants and odds and ends that have accumulated for several years, and close them out, to be replaced with the newest goods the market affords. In the odds and ends, and remnants you'll find many bargains. If you can find anything you want in this line come and get it.

In all lines of dry goods and notions we propose to give you the best service possible. If you don't find what you want in our store, we will get it for you. We'll telegraph the order if you are in a hurry. We can deliver it just as cheap as you can get it, and pay express on it. Our aim will be to give you first class, complete and up-to-date service in our line at prices that you will admit are reasonable under the present circumstances.

Call and See us.

## AMUSEMENTS

## BUTLER THEATER

Vivian Martin, the charming and ever popular star in her latest success "The Wax Model" a thrilling drama of the artist's life in London. In this splendid play Miss Martin is given a wonderful opportunity to display some of the most exquisite gowns of the current mode. Vivian is first seen in a little shabby serge suit and home made hat as she starts out to secure her first position; then in the nursemaid uniform, and next in the film white draperies as she poses for the sculptor. In her negligee at home she is the essence of daintiness. At the celebration of her birthday in a gay Bohemian cafe she wears an imported gown of beautiful hand embroidered lace, trimmed in sequin pearl and draped with velvet, the coat being of heavy brocade velvet with deep band of fur at the bottom, and fur collar and cuffs. An afternoon frock is of pale pink silk; a little French bonnet and dainty parasol completing the costume. Another gown is of tulle with black satin band at bottom of the skirt and a wide sash tied in big careless bow at the back; a black lace hat trimmed in French roses and a ruffly parasol complete this costume. Today at the Butler all patrons will take a visit to San Francisco with Ford Educational Weekly. Tomorrow William Farnum, in a Fox Supra De Luxe "American Methods."

## Wonderful Soda--

That's what they all say

—and why wouldn't they say it? It certainly is the most wonderful soda we have ever seen, and probably the very best soda that can be produced today. That is the reason. First, purity of ingredients, then careful manipulation, then a sanitary fountain and the cleanest and nearest service. That's what makes it good. That should appeal to you, and induce you to meet and treat at our fountain, now and for the balance of the summer. Any flavor you want; all the old-timers, and the newest ones.
